

Global Strategy and Leadership - why it is critical for candidates to be good at analysing different scenarios to understand the strategic concepts

PDL Academy will assist you in understanding the Concepts and Principles that underpin Strategy and Leadership. This will then provide you with the ability to apply these Concepts and Principles to real-life Case Studies.

These are the following steps covered in our Weekly Tuition Classes:

STEP 1 - We teach you to use analytical tools and models to understand and measure the performance of the organisation

STEP 2 - We guide you on using business information for decision-making from an organisational perspective

STEP 3 - We teach you to identify and explain the key challenges faced in the implementation of strategy

STEP 4 - We help you to consolidate your understanding of Strategic Concepts & Principles towards formulating and applying broad strategies using real-life Case Studies

PDL Academy has over 11 years' experience in teaching GSL and our tutors will assist you in preparing for the exam and to deal with different exam scenarios.
